Transmittal No: 93 LCM-41

Date: April 20, 1993

Division: Health & Long Term
Care

TO: Local District Commissioners

SUBJECT: WIC/Medicaid Coordination

ATTACHMENTS: Listing of Local WIC Agencies

The purpose of this memorandum is to inform you of recent efforts by this Department to coordinate with the Special Supplemental Food Program for Women, Infants and Children (WIC), and to encourage you to provide support and cooperation to coordination efforts at the local level.

Health Care Financing Administration (HCFA) regulations 42 CFR Part 431 require coordination between WIC and Medicaid. These regulations specifically require State Medicaid agencies to provide timely written notice of the availability of WIC benefits to the following individuals who are determined to be eligible (including presumptively eligible) for Medicaid:

- pregnant women;
- postpartum women;
- breastfeeding women;
- infants and
- children under the age of five (5).

The client books, "What You Should Know About Social Service Programs" (DSS-4148b and 4148c) are being revised and will include information on WIC, and the Child Teen Health Plan (C/THP) annual informing letter now also provides information on WIC. C/THP coordinators should contact the local WIC agency(ies) within your district to establish a referral mechanism and to obtain WIC materials for distribution to the target population. A listing of local WIC agencies is attached.
